DOOLITTLE IS ELECTED FOOTBALL CAPTAIN

At a meeting of the All Hallows college athletes Monday afternoon Thomas Deolittle was elected captain for the 1908 football team. Deolittle although having the cognomen of a lazy man, is very much alive when in a game of football. He is a heavy player holding down the position of fullback and is one of the star punters of the college team.

The annual college football banquet will be held Tuesday evening at All Hallows college.

TILLMAN BITTERLY DISCUSSES FINANCE

Ridicules Cashiers' Certificates and Fires Hot Shot at Dahlman of Omaha.

WASHINGTON, Dec. 16. In the course of a speech in the Senate to day, Senator Tillman commented characteristically on financial affairs. He said he believed that President Roosevelt was a patriot, and that while he had been guilty of many indiscretions and said many things which in cooler moments he would have been willing to take out of print, he did not believe that the President felt any satisfac-tion whatever in having been instru-

mental in the present financial paraly-sis, as had been charged.

'If we are not in the midst of a panic, we are in the midst of a chill produced by danger of a panic,' de-clared Mr. Tillman.

Speaking of a published interview

Roast for Dahlman.

"I fear that Mr. Dahlman is in im-minent danger of joining the Ananias club. Perhaps somebody here will use club. Perhaps somebody here will use the telephone and find out about that." He spoke of the manner in which the financial stringency has operated. "And," he added, "the President says he is proud of it. At least Dahlman says the President says he is glad of it. I can not believe he said it. He has said many things lacking discretion, but I don't believe he is so callous as to feel any pleasure in the condition of paralysis which confronts us. I believe he is a patriot, though he has perhaps shown it badly at times."

The Senator held aloft a clearing house certificate and loudly called upon the Senate to look at it.

"Here is a specimen," he declared. "Looks like what you call Confederate money—shin plaster—and yet they are issued by National banks. Look at it. I am going to have it engraved.

are issued by National banks. Look at it. I am going to have it engraved if it can be done without destroying it and put it in the Congressional Record. But I don't propose to have it destroyed and lose a dollar just to enlighten you on currency.

He wanted only good greenbacks and in rasping tones, speaking of the necessity of money, said:

"You will have to go to the boneyard if you can't get it."

YOUNG BIGELOW GIVEN INDETERMINATE SENTENCE

DENVER, Dec. 16.—Kemp V. Bigelow, the young clerk from Bryan, Ohio, who pleaded guilty to charges of murderous assault upon Gov. Henry Buchtel, Lawrence A. Phipps and Charles B. Kountz, to whom, with others, he mailed dynamite bombs early in October last, was sentenced to the State reformatory for an indefinite period by Judge Carleton M. Bliss today. According to his confession, Bigelow hoped to obtain money from the men to whom he sent bombs by pretending to disclose a plot to kill them in time to save their lives.

Appears in Three Strange Forms During One Short Winter's Day.

Monday was jeut such a day as should have come on the first of April—it started off with a snowstorm and every one thought it was going to be a windy, snowy day. Then the sun came out and drove the clouds away and people were led to believe it was going to clear up and be bright after all. Then it got cloudy and threatening and stayed that way and all of the people were fooled some of the time.

Sait Lake and Utah were not alone with that sort of weather. It looks like a conspiracy among the weather men because the same condition prevailed in Utah, Wostern Colorado, Southeastern Idaho and New Mexico.

THE REASON NOT GOOD.

Editor Tribune:—I noticed an article in the Herald last week stating that the tenants in the Covey flats on West Third South street had entered a pro-test against the third increase which was recently made in rents, and also that the manager of the Covey Invest-ment company had announced that the increased rates would have to remain in effect, owing to the high tax rate and the advance in the price of coal. The article above referred to also

says:
 'The Covey Investment company's tax assessment for its several properties amounts to \$93,610, and the income is \$4000 a month.

It will therefore be noted that the

gross income from these properties amounts to 51 per cent of the assessed valuation. The writer has always been a

sistent booster for Sult Lake, along legitimate lines, and is heartily in symlegitimate lines, and is heartily in sympathy with those real estate owners who are making an honest effort to call attention to the great resources of the State in general and to Sait Lake in particular: therefore a little trouble has been taken to look into the facts regarding certain real estate investments. It has been found that the Covey Investment company owns certain Investment company owns certain landed estates on West Third South street, where the company has creeted Speaking of a published interview with the President by Mayor Dahlman of Omaha, in which the President is alleged to have said that if he was responsible for the panic he was glad of it, as it had brought to view the rotten conditions of the country's finances, he said:

Speaking of a published interview the thirty-six cottages and twenty one flat apartments. The records show that this property was assessed last year at \$7500 for the real estate and \$35,000 for the improvements, making a total of \$42, 500, the rate being 35 2-10 mills, amounting to \$1491.75. For this year the property was assessed for real estate and some content of the country's finances, he said: the property was assessed for real estate \$10,395, and for improvements \$35,900, a total of \$45,395, the rate being 37.3-10 mills, amounting to \$1693.22, or an increase in taxes for the year of \$201.42.

The increased income from the recent raise in rents amounts to \$1710 per year, or \$16.78 more than the entire tax on the property. The gross income from the property. The gross income from the property is \$20,790 per year, which, it will be observed, is nearly 47 per cent of its assessed valuation. Or, to put it differently, take the gross income, \$20,790, then deduct the taxes, \$1693.22, and janitor services, estimated at \$900, and coal, estimated at \$1000, and we have a net revenue of \$17,196.78, or over 37 per cent on the assessed valuation, Property owners may charge as high rental as they please, but they should be reasonable, and when they try to justify the increase by claiming high taxation it is misleading, unfair and unjust to our city.
